

MySchool@Kent

a program of Kent ISD

School
that's

Unique Like You!

MySchool@Kent offers the flexibility and customization of an online school, PLUS the support and personal relationships of a traditional school.

How?

We're a "hybrid" school – partially online and partially face-to-face. Our students have the ability to learn anytime, anyplace and at their own pace, like other online schools. Plus, we have actual physical locations. Here, students work with other students, meet with and get support from real teachers and other caring adults who help them succeed.

MySchool@Kent is for students who need a flexible option to:

- make time for electives, like band or art
- get ahead in credits or make time for college classes
- make up missing credits
- allow for extensive travel or intense sports training
- allow time for work or caring for a family member
- have a non-traditional school experience

Is MySchool right for you?

Successful MySchool students share these characteristics -

- persistence and a drive to learn
- familiar and comfortable with technology
- ability to work independently

... but most students can be successful if they are willing to try their best! And we will help.

Our program is accredited. Which means you earn real credits and a local diploma – which really matters to employers and colleges.

MySchool@Kent also gives you:

- A long list of course options
- Caring, Michigan-certified teachers, both online and face-to-face
- Supportive coaches and mentors to help you succeed
- A laptop and internet access if needed
- Ongoing enrollment throughout the year

School – *Personalized!*

MySchool@Kent's flexibility and customization means it can work for students in all kinds of situations. Join us for one, some or all of your classes – for a semester or the whole year depending on your needs. We have full time, part time and specialty options year round, including...

"A La Carte" classes

(known as "21F" to your counselor)

Looking for an extra class your school doesn't offer? Take that class with us! You'll stay right at your school, supported by your school's staff.

Summer School

Get ahead, get caught up, or just make room in your schedule by taking a class or two with us in the summer. Work 100% online, then visit one of our community locations for testing. All of our usual courses are offered throughout the summer for a small fee. Signup on our website beginning in the spring.

Course Plus for KCTC

Just for Kent Career Tech Center students, Course Plus is perfect if you're struggling to fit everything in or have a scheduling conflict that might otherwise prevent you from attending the Tech Center. We help you earn the credit you need to meet graduation requirements while pursuing your passion! You get online support, plus connect with MySchool staff right at KCTC for testing and face-to-face support when you need it.

SuccessLink

We partner with the David D. Hunting YMCA and the Gaines Township Library to offer our program in smaller settings. SuccessLink is also available 100% online (with approval from a counselor), so you can still earn your diploma even if you're on long-term suspension or expulsion.

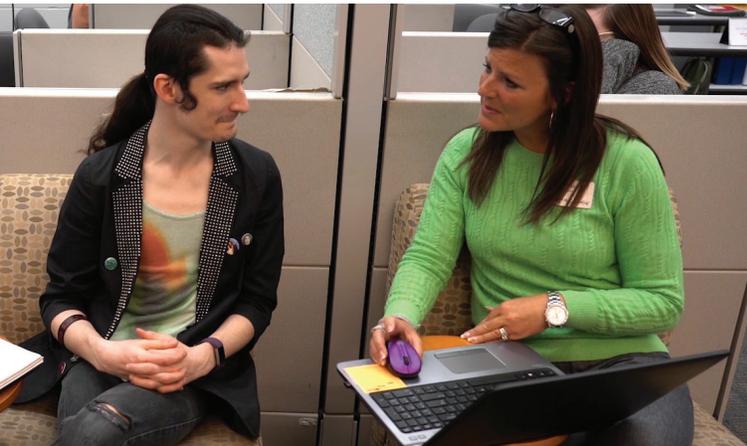

MySchool@Kent Hours

Session 1 – 6:55-9:10am
